# RETRO-POP FASHION III — FINAL EDITION
# DIGITAL ART COLLECTION

## When artificial intelligence dreams in color, fashion comes alive.

---

**Retro-Pop Fashion III — Final Edition** is a digital art collection concluding a creative cycle dedicated to retro-pop aesthetics, neon light, and cinematic fashion.

The collection explores the intersection of fashion photography, nocturnal cinema, and retro-futurist imagination.

Artificial lights, frozen poses, and electric silence define a universe where movement is suggested rather than imposed.

Each artwork is a unique piece (1/1), conceived as an autonomous image while contributing to a coherent visual narrative.

**Neon Highway**
**Hero Piece — 1/1**

Neon Highway is the central work of the collection.
A solitary figure stands motionless before a luminous landscape suspended in time.
This piece establishes the scale, rhythm, and artistic intention of the entire edition.

**Sound**
The soundtrack accompanying Neon Highway is an original composition, created by the artist specifically for this work.

**Details**
- Edition: 1/1
- Format: Portrait video
- Blockchain: Polygon
- Marketplace: OpenSea
