## Final Edition

***Retro-Pop Fashion III — Final Edition*** concludes a creative cycle dedicated to retro-pop aesthetics, neon light, and cinematic fashion.

This collection does not seek accumulation or repetition.

Each artwork is conceived as a singular image — autonomous, intentional, and complete — while contributing to a coherent visual narrative.

Between fashion photography, nocturnal cinema, and retro-futurist imagination, the collection explores stillness, artificial light, and suspended time.

## Artistic Direction

*Artificial lights.*

*Frozen poses.*

*Electric silence.*

*Movement is suggested, never imposed.*

*Each piece exists as a moment held in tension — a photograph that breathes, a scene that refuses spectacle in favor of presence.*

## Neon Highway — Hero Piece

**Neon Highway** is the central axis of the collection. A solitary figure stands motionless against a luminous landscape suspended in time.

This work establishes the scale, rhythm, and visual language of the entire edition.
